

ERHAN BALIK

Jr.Front End Developer

I have been in the IT industry for more than 15 years. I have been developing myself in the field of coding for more than 3 years. I have been developing myself in the front-end field for the last 1.5 years. I mostly developed my own projects and published them on platforms such as GitHub, Vercel and Netlify. My goal is to describe myself as a full-stack developer.
